Creighton University is seeking healthy volunteers for a new research study looking at how vaping electronic cigarettes (e-Cigarettes) may affect the lung function and carbon monoxide in the breath and blood.

To be eligible to participate in this study, you must be:
• 19 years of age or older AND
• An exclusive e-cigarette user willing to be randomly assigned to e-cigarette nicotine level, style and flavor.

Volunteers cannot be:
• Pregnant or planning to become pregnant during the study period
• Breastfeeding
• Diagnosed with any lung related condition such as Asthma, COPD and Chronic Bronchitis.

Additional Study Details
Pre-Visit Requirements:
• Volunteers must refrain from nicotine (smoking or vaping), caffeine, food and exercise for two hours prior to their visit

Enrolled volunteers will receive:
• A $20 stipend for time and travel
• Results of lung function test
• Carbon monoxide test results
• Blood pressure and heart rate measurement results
